

## 「Notice regarding food allergies」

Regarding food allergies at Onishiya Suishoen, we would like to inform you as follows. Thank you for your cooperation.

We are doing our best to accommodate customers who have reported food allergies so that they can enjoy their meals. When providing food and beverages at the hotel, we give top priority to the safety of our customers, but please be aware of the following matters in advance.

- Although we can accommodate individual allergies (such as crab itself is not good), we cannot accommodate all allergens contained in ingredient allergens, binders, soup stock, seasonings, etc. Please understand.

- Since it is cooked in the same kitchen as other menus, it is cooked with great care, but there is a possibility that allergens may be slightly mixed in during the cooking process.

- In the case of children, for the safety of children, please have an adult check the meal before eating and drinking. If you are unable to eat the food provided due to food allergies, you may bring your own food and drink at the same seat.

(Please let us know when you make a reservation.)

(We can also help you warm up the microwave oven, so please let us know.)

**\*Please make the final decision before eating.**
